Syllabus Roadmap

Java Script

DATE	Topics
02-04-2026	Variables Arithmetic operators Accept user input Type conversion
06-04-2026	Constants Math object If statements Checked property
07-04-2026	Ternary operator Switches String methods String slicing
08-04-2026	Method chaining Logical operators Strict equality While loops
09-04-2026	For loops Functions Variable scope Arrays
10-04-2026	Spread operator Rest parameters Callbacks ForEach
13-04-2026	Map Filter Reduce Function expressions
15-04-2026	Arrow functions JavaScript objects What is THIS Constructors

16-04-2026	Classes STATIC keyword Inheritance SUPER keyword
17-04-2026	Getters & Setters Destructuring Nested objects Sorting
20-04-2026	Shuffle an array Dates Closures SetTimeout
21-04-2026	ES6 Modules Asynchronous code Error handling What is DOM ?
22-04-2026	Element selectors Mouse event Key events Callback hell?
23-04-2026	Promises Async / Await JSON files Fetch data from an API

Bootstrap

DATE	**Topics**
24-04-2025	Intro Installing Bootstrap Typography Background Colors
27-04-2026	Simple Blog Layoutay Padding Adding Colors Flexbox Layout
28-04-2026	Responsive Design Grid System Navigation Bar

	Forms
29-04-2026	Column for Large Devices Fixed and Sticky Header Height and Width Classes Conclusion

React

DATE	Topics
30-05-2026	Introduction What is React? Using React in HTML Create React app tool
04-05-2026	Running Project Understanding React Project React Basics Class Component
05-05-2026	Props Props in Class Component React Developer tools browser extension Conditional Rendering
06-05-2026	List List keys Inline CSS Styling CSS Stylesheet
07-05-2026	Creating state Creating state in class components Multiple state in hooks State with Object
08-05-2026	Updating object in state Updating Objects in class component Updating arrays in state UseEffect
11-05-2026	Using useEffect in different ways Creating form Getting input value to state Submitting form

12-05-2026	Handling Multiple Input fields Simplifying onChange handler React router React router introduction
13-05-2026	React router setup Router Links Route parameters Nested Routes
14-05-2026	Navigating Programmatically Reach hook Repo setup Project setup Displaying user data
15-05-2026	Adding new user Updating user data Deleting user
